Plant your roots in Ireland...

FROM LITTLE ACORNS...

...WONDERFUL THINGS GROW

When you purchase an Irish oak tree, you will receive a certificate of ownership, which will display your name or the name of your choice. The certificate will also show your unique tree identification number, and the position of your tree within the oak forest in Killarney National Park in longitude and latitude coordinates derived from the Global Positioning System (DGPS). This system allows us to fix the position of your tree to within one inch. Every tree is labelled with a metal tag, which clearly states your full name and unique tree identification number.

OWN AN IRISH OAK TREE IN IRELAND

The forest is located in the highlands of Kerry, in the southwest of Ireland, 10 miles from the town of Killorglin and centrally located on the Iveragh peninsula to the towns of Killarney, Kenmare, and Waterville. The forest is landscaped to welcome visitors, with walkways and ample car parking. When you want to visit your tree, finding it within the forest could not be simpler, you just have to check your name or unique tree identification number against the name tags on the trees.

To plant your Irish roots now, please fill out the order form on the back of this brochure or make your purchase online at
